The harlor strike situation has passed beyond the control of both workers and employers. As far as the former are concerned the strike issue is Director Ready to Operate or definitely settled. They will remain at work on terms to be fixed by the National War Labor Board.

This was the situation yesterday af-Howard Taft adjourned until Wednesday the hearing called at the cabled in-structions of President Wilson after a strike of 16,000 workers had kept the harbor tied up for three days.

The adjournment followed the with-

sitting in the case. This objection, stated to be on the ground that these members had disqualified themselves by issuing a statement last week in which reponsibility for the strike was laid at the door of the private boat owners, was overruled, Chairman Taft ruling that there was nothing in the state nest to indicate that the members mentioned were unable to decide the case on its merits.

Decision to Be Made Promptly. Boat Owners Association, thereupon announced the withdrawal of the private employers, Chairman Taft made it clear that this action would have no effect whatever on the programme of the board. He announced that a section of four members would take such testimony as the parties had to offer and report Wednesday morning at 10 o'clock, when

the board will prepare its decision. "If the boat owners be advised." warned Mr. Taft, "they will appear and be heard in full by the members here or the full board in Washington. Of course

Mr. Taft opened the hearing with the statement that the full board was present in compilance with the request of President Wilson that it take up again the questions at issue between the boat owners and the marine workers of New York. The cubigram from the President to this effect was then read by Mr. Taft and he also read a letter signed jointly by Secretary of War Blaker, Secretary of the Navy Daniels, Director General of Railroads Hines and Acting Chairman Donald of the shipping Board, stating that their departments submitted their interests in the case to the decision of the board.

Hand of Bolsheviki

WASHINGTON, Jan. 13 .- Officials here were much in terested to-day in an article pub-lished in the Berlin Tagelische Rundschau of Saturday stating that the Spartacus group had sent a telegram to Moscow stating that fighting must be stopped as soon as possible because the Berlin working classes were not ripe for dictatorship of the pro-

letariat. This, it was pointed out, supports the charge that often has been made that the German up-rising has been directed by the Russian Bolsheviki.
